BCA (Second Year) (Fourth Semester) EXAMINATION

APRIL/MAY, 2025

(CBCS Revised Pattern)

COMPUTER SCIENCE

Paper–BCA–401

(Programming in Java)

(Saturday, 5-4-2025) **Time : 2.00 p.m. to 5.00 p.m.**

Time—3 Hours *Maximum Marks—75*

N.B. :— (*i*) *All* questions are compulsory.

(*ii*) Figures to the right indicate full marks.

(*iii*) Assume suitable data, if necessary.

1. Attempt any *five* of the following (**3** marks each) : 15

(*a*) Explain features of Java.

(*b*) Explain the JVM.

(*c*) Explain the Java Environment.

(*d*) Define exception and enlist methods of exception handling.

P.T.O.

(*e*) Explain defining class and method declaration.

(*f*) Explain applet and creating applets

(*g*) Explain the use of "THIS" keyword with an example.

2. Attempt any *three* of the following (**5** marks each) : 15

(*a*) Explain Java programming structure.

(*b*) Enlist condition statement and explain If.....Else statement with example.

(*c*) Explain Java variables, constants and data types.

(*d*) How does Java differ from C++ ?

(*e*) Explain array in detail.

3. Attempt any *three* of the following (**5** marks each) : 15

(*a*) Explain final method and final class.

(*b*) Explain constructor and any *two* types with example.

(*c*) Explain visibility control in Java.

(*d*) What is inheritance ? Explain any *two* inheritances with example.

(*e*) Explain method overriding with example.

4. Attempt any *three* of the following (5 marks each) : 15

(*a*) Explain the finalizer( ) method with example.

(*b*) Explain creating user defined exception with example.

(*c*) Explain types of error in exception.

(*d*) Explain Applet Life Cycle with example.

(*e*) Explain types of streams.

5. Attempt any *three* of the following (5 marks each) : 15

(*a*) Explain the method overloading with example.

(*b*) Explain multiple catch statement.

(*c*) Explain string buffer class and its methods.

(*d*) Explain finally clause with example.

(*e*) Explain passing parameters to applets with example.
